Our sole focus is on manufacturing the best possible aluminum and steel procedure carts for the medical industry. Without the distraction of other unrelated product lines we have been able to accomplish this goal for well over 40 years.

Waterloo Healthcare’s singular purpose is to address the ever-changing requirements of our long-time customers in healthcare. As requirements for security and the need for rapid access to critical supplies change we are poised and ready to create a purpose-built cart for you.

Our in-house staff of engineers pride themselves on their ability to create custom designs for our customers. If we don’t have a cart or accessory that serves your unique needs, chances are we can design something for you.

Waterloo offers a bumper to bumper five-year warranty that stands out in the industry. More than forty of our carts have been around since the 1970’s that are still in service today...a testament to the quality we build into each and every cart we manufacture!

Let’s face it, carts aren’t rocket science, but getting the right configuration that will facilitate your staff’s needs can seem like it. That’s why our customer support team, national distributors and field sales reps are available to meet with you to help you match the right Waterloo cart for the job.

Our in-house staff of engineers pride themselves on their ability to create custom designs for our customers. If we don’t have a cart or accessory that serves your unique needs, chances are we can design something for you.

Our in-house staff of engineers pride themselves on their ability to create custom designs for our customers. If we don’t have a cart or accessory that serves your unique needs, chances are we can design something for you.

FREE DRAWER CUSTOMIZATION
Select ANY combination of drawer sizes and colors at no extra charge. Other cart companies charge for this privilege.

FREE PLASTIC TOP
Other companies charge extra for plastic tops but with Waterloo carts, plastic tops are always FREE.

CARTS ARRIVE FULLY ASSEMBLED
Left the top off the box and your carts are ready to roll into service! Drawer fronts, handles and casters are all factory installed. The only assembly required are the two push handles, since you may have a preference on which side you’d like them. We even include the tool to mount them. Please note: optional accessories may require field installation.

TURKEY DELIVERY AVAILABLE
For a very small "piggy back" fee we can fully assemble ALL required accessories and deliver your carts palleted, shrink-wrapped and on dedicated trucks so they can be immediately rolled into service for large cart projects. Crash carts, Anesthesia carts, Bedside carts, etc... we find a huge labor cost savings to your facility and allows for immediate cart deployment! Call for details.

WATERLOO IS THE MANUFACTURER
Other cart companies may appear to manufacture their own carts when in reality they have their cart manufacturing done at Waterloo or we will take the responsibility of determining the true manufacturer of your cart. No more surprises when you call your cart supplier. Want something that you don’t see in our catalog? Give us a call...we love custom work!

LOCAL SALES REPRESENTATIVES
Local reps are available to bring in a cart for your evaluation, just give us a call!

FIELD SERVICE TECHNICIANS
Should you need field service to upgrade your Waterloo carts to a new locking system, or a new drawer configuration we have field service techs that can be dispatched to your facility. There is a charge for this service, but it can be less expensive to field upgrade your Waterloo carts than to purchase all new ones. As manufacturers we offer resources that other cart companies cannot.

ADVANTAGES OF ALUMINUM

Our Elite aluminum carts are built to last, providing years of service without the need for constant repair. In contrast, steel carts can be heavy and difficult to maneuver, with drawers that may not open and close smoothly.

The Elite aluminum cart is purpose built for maximum performance. It is lightweight and easy to maneuver, even in tight spaces. The U-Divide divider system in each and every drawer allows for maximum organization and efficiency when writing or working on the cart's surface.

Once there, the Waterloo Elite aluminum cart offers you twice the work surface as a comparable steel cart AND built in organization with our Single pull-out shelf provides additional work surface on both sides of cart. Can be raised or lowered providing limitless accessory configuration options.

Quick access to accessories is available at the palm of your hand and provide better control than traditional horizontal push handles. Our "one-piece" handles fit naturally in the palm of your hand and provide better control than traditional horizontal push handles.

Our "one piece" nylon reinforced polycarbonate stabilizer base provides greater cart stability and resistance to scuffs/scrapes while protecting your cart. Our casters have precision sealed bearings for easy "maintenance free" rolling and other materials from collecting around axles.

Ball bearing drawer slides with 48 ball bearings per slide provide easy drawer access. Our "one-piece" handles fit naturally in the palm of your hand and provide better control than traditional horizontal push handles. High-quality "auto closing" drawer glides provide easy drawer access.

Auto-closing drawer glides provide easy drawer access. Single pull-out shelf provides additional work surface on both sides of cart. Can be raised or lowered providing limitless accessory configuration options.

Our Elite aluminum cart is purpose built for maximum performance. It is lightweight and easy to maneuver, even in tight spaces. The U-Divide divider system in each and every drawer allows for maximum organization and efficiency when writing or working on the cart's surface.

Once there, the Waterloo Elite aluminum cart offers you twice the work surface as a comparable steel cart AND built in organization with our Single pull-out shelf provides additional work surface on both sides of cart. Can be raised or lowered providing limitless accessory configuration options.
Waterloo has you covered when it comes to security. Whether you need controlled cart access or simple tamper evident locks, we have a locking configuration to meet your needs. We can even offer customized solutions that would allow you to lock certain drawers independently.

Want a “Controlled substance” drawer on your anesthesia cart? We’ve got you covered there as well! Our dual access controlled substance drawer locks are available on any of our wifi enabled locks. One code (or prox card swipe) gains access to the cart and another key-code is required for access to the controlled substance drawer.

We even have WiFi connectivity on our electronic and proximity locking carts that allows you to remotely change passcodes and access usage activity from a central server (additional software required).

All Key locks and key override locks are “Keyed Differently” unless customer requested to be “Keyed alike.”

Get the right access method for your needs with these security locking systems:

**KEY LOCKING SYSTEM**
Standard key-lock that includes two keys. On multiple cart orders, we will key all carts differently unless you request them to be “Keyed alike.”

**LEVER/BREAKAWAY LOCKING SYSTEM**
Our centralized lever-lock provides easy access for your tamper evident breakaway seals. Additionally, it serves as a “Transport Lock” that keeps drawers in place during rapid transit. No more heavy fluid drawers flying open when turning corners en route to your procedure.

**GATE LOCKING SYSTEM**
Individual gate locks allow you to independently secure drawers with either breakaway or key locks. You can even group drawers together in the same gate for larger gate locks. Gate locks can streamline Crash Cart re-stocking by allowing you to only restock drawers accessed during a code.

**PUSH BUTTON COMBINATION LOCKING SYSTEM**
Go Keyless with our reliable mechanical push-button lock. Requires no batteries and the combination is user adjustable.

**ELECTRONIC LOCKING SYSTEM (OPTIONAL WIFI AVAILABLE)**
User programmable electronic lock accommodates many users and provides an audit trail of cart access. *Not available on full size Steel Uni-carts.*

**PROXIMITY LOCKING SYSTEM (OPTIONAL WIFI AVAILABLE)**
Adds the increased convenience of standard HID (Or iClass) Employee Card access to our user programmable electronic lock. Accommodates many users and provides an audit trail of cart access. *Not available on full size Steel Uni-carts.*

**DUAL ACCESS CONTROLLED SUBSTANCE DRAWER**
Keeps controlled substances secure in the top drawer by requiring two credentials to gain access. Proximity card swipe gains access to all drawer except the top “Controlled substance” drawer. A secondary key code is required to gain access to this drawer. Available on WiFi locks only. *Not available on full size Steel Uni-carts.*

All Waterloo carts are coated with a highly durable powder paint that is designed to withstand the demands of the medical environment. The powder paint we use is designed to stand up to standard cleaning solvents used in central sterile supply for surface cleaning. Additionally, our most popular colors include anti-microbial properties. The majority of our powder paint includes silver ionic compounds that inhibit the ability of micro organisms to spread. These anti-microbial properties are designed to enhance your standard cart cleaning protocols.

With 16 colors to choose from and the ability to mix and match drawer colors on a single cart you will be able to create a unique cart for your particular application and/or to match a specific decor.
EMERGENCY CARTS

Rapid and organized response to a cardiac emergency is essential. The lightweight aluminum cart is about 30% lighter than a standard steel cart, allowing care providers to move it easily and maneuver it on steep inclines. The added height also allows the cart to take tight corners, further improving maneuverability.

Work surface and drawer organization are vital during a Code. Our steel side shelves virtually double your cart top work surface, allowing you to store equipment or supplies to the cart top and within easy reach.

Inside our drawers you’ll find durable metal drawer dividers that will keep supplies organized and safely. The non-rolling bottom rail for items to the front of an emergency. Our metal dividers will stand up to years of use and can be sub-divided with optional plastic sub-dividers.

Economical steel crash carts offer a robust work platform that can be configured with accessories to meet your code cart needs. Included side shelf on right side of cart provides additional work surface. Optional trays and dividers are available to further organize the contents of your cart. Shown many of the same great features as our aluminum cart but at a more economical initial price.

If you are considering a steel cart and are looking to organize it with optional plastic trays/dividers, you may wish to consider our aluminum carts. The included dividers and dual pull-out side shelves that come standard on our aluminum carts may offset the additional cost to upgrade.
CRASH CARTS

Crash carts come in all shapes and sizes, and at Waterloo we acknowledge that facility managers need a wide variety of cart sizes designed to fit your specific needs. We offer two choices in aluminum crash carts: Elite Aluminum and Traditional Steel. We can help you pick the correct cart height to accommodate your configuration. From there, you can choose between all red or all blue cart colors depending on your facility’s designated crash cart color.

If you’d like to color code drawers to make them easy to identify quickly, simply let us know what color to color code to make them easy to identify quickly. We never charge for this option!

Steel carts come in many of the same cart heights as our ELITE aluminum carts. Just like our aluminum carts, choose your desired drawer combination of 3”, 6”, 9” or 12” drawers which will help us determine the correct cart height for your configuration. Then, choose between an all red or all blue cart depending on your facility’s designated crash cart color. Should you like to color code any drawers, simply let us know which drawer and what color and we are happy to accommodate your request at no extra charge! If you’d like to create a custom design for your crash cart, we are happy to accommodate that request at no extra charge!

Individual gatelocks are available on steel carts and can be installed at our factory for you. Waterloo steel crash carts are available in Extra-Tall, Tall, Medium and Short cart sizes (See page 5 for sizing chart).

The Waterloo ER-2000 takes an innovative approach to crash carts and is designed to rotate full access to all drawers at the push of a button. Contact us for more details!
Organization and work surface are important features on an anesthesia cart and the Waterloo aluminum anesthesia cart offers both. With the U-Divide drawer divider system included in every drawer a Waterloo aluminum cart is organized right out of the box. Fine tune your organization with a vast variety of custom trays and dividers that offer more specific organizational options. With two pull out side shelves, work surface on an Waterloo aluminum cart is virtually double that of competitive carts! Couple that with a variety of above cart tilt bin and shelving options and you have all the flexibility needed to organize equipment and supplies that need to be readily available in the OR.

Economical steel anesthesia carts offer a robust work platform that can be configured with accessories to facilitate your work in the OR. Shares many of the same great features as our aluminum cart but at a more economical initial price. Included side shelf on right side of cart provides additional work surface. Optional trays and dividers are available to further organize the contents of your cart. If you are considering a steel cart and are looking to organize it with optional plastic trays/dividers, you may wish to consider our aluminum carts. The included dividers and dual pull out side shelves that come standard on our aluminum carts may offset the additional cost to upgrade.

**ANESTHESIA CARTS**

**ELITE ALUMINUM**

- **Construction**
  - Ball Bearing Slides
  - Easy-roll Casters

  - See Page 32.

- **TILT BINS**
  - Convenient tip out tilt bins available in 3Bin, 4Bin, 5Bin and 6Bin sizes.
  - Requires Base rail system sold separately Part#s TB-3, TB-4, TB-5, TB-6
  - See Page 321

- **WASTE BASKET**
  - Large 20Quart plastic waste basket.
  - Part#s BSK-2 (20Qt) or BSK-1 (6Qt)
  - See Page 31

- **WIRE STORAGE BASKET**
  - Extra Large Wire Storage Basket mounts to accessory railing and measures 15.5"W x 9.5"D x 5.5"H.
  - Part# WSB-1
  - See Page 32

- **CLEAR ORGANIZER**
  - Clear acrylic organizer to keep small items at hand.
  - Part# ORG-1S
  - See Page 32

- **TAPE DISPENSER**
  - Light gray metal tape dispenser can be mounted directly to the top of the cart via included suction cups or to a base rail system using the included accessory hooks. Holds approximately 10 rolls of tape.
  - Part# TD-1
  - See Page 32

- **FEATURES**
  - 5" Premium "Easy roll" sealed bearing casters with precision bearing swivels. Thread guards minimize sutures and other materials from collecting around axles and keep carts rolling smoothly.
  - Adjustable metal drawer dividers (One long and One short) included in all aluminum cart drawers.
  - 1" Premium "Easy roll" sealed bearing casters with precision bearing swivels. Thread guards minimize sutures and other materials from collecting around axles and keep carts rolling smoothly.
  - Pre-drilled holes to mount accessories.
  - Coated with antimicrobial surface.
  - Lightweight aluminum construction
Anesthesia carts come in all shapes and sizes, and with various security requirements. Waterloo is committed to finding the best solution for your needs. Simply choose your desired drawer combinations of 3”, 6”, 9” or 12” drawers and we can help you pick the correct cart height to accommodate your configuration.

Then simply select your cart exterior color and your drawer front colors. If you’d like to color code drawers to make them easy to identify quickly (example: White airway drawer), we can accommodate that request at no extra charge! Just let us know which drawer and what color and we can personalize your carts for you. Another advantage of working with a true manufacturer of medical carts!

**ANESTHESIA CARTS**

**ELITE ALUMINUM**

Waterloo aluminum anesthesia carts are available in Extra-Tall, Tall, Medium and Short cart sizes (See page 5 for sizing chart).

Waterloo anesthesia carts are available with a variety of locking options. From a simple key lock to a WiFi capable proximity card reader, we can provide the right level of security for your operating room.

Further enhance cart security with an independent locking “controlled substance” drawer (optional) to keep drugs secure. One swipe of an approved employee badge allows access to all drawers with the exception of the top drug drawer. A secondary key-code allows access to the controlled substances drug drawer keeping important drugs secure.

Next, select your cart exterior color and preferred drawer front colors. Should you like to color code any drawers, simply let us know which drawer and what color and we are happy to accommodate your request. We never charge for this option!

**TRADITIONAL STEEL**

Steel carts come in all of the same cart heights as our versatile aluminum carts. As with our aluminum carts, choose your desired drawer combinations of 3”, 6”, 9” or 12” drawers. From there we can determine the appropriate cart height for your configuration, for available cart sizes see sizing chart on page 5.

Note: select your cart exterior color and preferred drawer front colors. Should you like to color code any drawers, simply let us know which drawer and what color and we are happy to accommodate your request. We never charge for this option!
Access to isolation supplies has never been easier or more efficient than with Waterloo's line of Isolation carts and organizers. Whether you need the storage capacity of a full size cart or require a more efficient use of space as offered by our line of Med-Jr carts and wall organizers, Waterloo has you covered.

Our isolation carts offer storage for caps, gowns and masks as well as handy accessories such as glove box holders, waste baskets, and coat hooks. Waterloo aluminum carts include dual slide out side shelves that virtually double your work surface.

Metal drawer dividers are also included in every drawer of a Waterloo aluminum cart.

**Sharps Container Bracket**
- Accommodates standard 5QT sharps container. Locking version also available
- Part# SB-2
- See page 30.
Isolation carts store bulky items such as caps, gloves, gowns, face shields, etc. That means you’ll need deep drawers and lots of them to hold everything you need to keep cart size to a minimum in order to preserve space on patient floor hallways. Waterloo carts come in both standard and narrow widths along with four different cart heights so you can create the perfect balance between cart size and storage space!

Our Isolation Stations are perfect anywhere a wall/door mounted storage solution for personal protective supplies is needed. If your isolation supply needs don’t require the extra storage capacity of our carts then choose from one of our many hanging organizers. A wide variety of configurations are available to match your needs.

Our respiratory hygiene station (with optional kiosk stand) offers a small free-standing solution for patient waiting areas. Designed to encourage visitors to take necessary precautions per CDC guidelines regarding respiratory hygiene. It holds one box of masks, a standard tissue box (or two small boxes) and a hand gel sanitizer bottle.

Hanging isolation stations accommodate various configurations of glove boxes, gowns, and face masks:
- Pre-drilled keyholes for easy wall mounting.
- Door hanger cutout on back of organizer.
- Made of lightweight yet durable aluminum.
- 15 Year Warranty.
Improve your nursing staff’s “Time spent with patient” by keeping commonly used patient care/nursing supplies at the patient’s bedside. Waterloo aluminum bedside carts can fit into tight patient room areas and even under existing counters. Our aluminum carts can even provide extra workspace when needed with the included dual slide out side shelves!

Wherever your storage needs are, Waterloo has a bedside cart designed to fit your available space. From a full width Unicart to a narrow Med Jr we offer a cart that can accommodate patient supplies and minimize trips to a central supply closet.

**ACCESSORIES**

**SINGLE GLOVE BOX HOLDER**

Wire notebook holder.  Part# WNH-1  SEE PAGE 31.

**HALF DRAWER NARCOTICS BOX**

Keyless mechanical push-button narcotics box can be used to safely secure patient’s personal items.  Part# SD-3S  SEE PAGE 34.

**TRIPLE GLOVE BOX HOLDER**

Glove box holder that will hold 3 glove boxes and mounts to our accessory rails.  Part# BH-3  SEE PAGE 31.

**UTILITY HOOKS**

Set of two industrial strength, self adhesive utility hooks can be applied to any smooth metal surface.  Part# UH-2  SEE PAGE 30.

**3 INCH CASTERS**

Replace our standard 5” casters with these 3” versions to lower the cart height and allow the cart to fit under counter tops.

**WIRE CHART HOLDER**

Wire notebook holder.  Part# WNH-1  SEE PAGE 31.

**HORIZONTAL GLOVE BOX HOLDER**

Glove box holder that will hold 3 glove boxes and mounts to our accessory rails.  Part# BH-3  SEE PAGE 31.

**UTILITY HOOKS**

Set of two industrial strength, self adhesive utility hooks can be applied to any smooth metal surface.  Part# UH-2  SEE PAGE 30.

**3 INCH CASTERS**

Set of two industrial strength, self adhesive utility hooks can be applied to any smooth metal surface.  Part# UH-2  SEE PAGE 30.
BEDSIDE/NURSE SERVER CARTS

Waterloo steel bedside carts are also available in a wide variety of sizes and configurations. They fold out side shelves and include metal drawer dividers.

If your bedside storage requirements are more than our Slim Med Jr. can accommodate, consider one of our Tall units which provide a larger storage capacity.

Keyless locking options for our aluminum carts include: mechanical push-button, electronic keypad and even Proximity card readers for swipe-in/swipe-out convenience!

All carts available with a “Low profile” package that includes 3” casters mounted directly under the cart (No Bumpers).

Our “Low Profile” bedside cart is designed to tuck neatly under an existing counter or desk. Providing the perfect solution for an unused alcove!

Aluminum Med Jr carts are available in Extra-Tall, Tall, Medium and Short sizes. For illustrations of available sizes see page 5.

Optional Heavy duty Thermoflex cart tops available. See page for details.

BEDSIDE/NURSE SERVER CARTS

includes a SUMMIT 1.6cu. ft. interior refrigerator with exterior digital thermostat and temperature alarm. The internal fan and gel packs help to stabilize the interior temperature. Key locking front door and hospital grade plug come standard.

Give us a call and our customer service team can assist you in creating your own unique “Specialty Cart”!

CUSTOM CONFIGURED Carts

Waterloo carts can be outfitted with accessories to match your specific specialty.

Looking for a “Difficult airway cart”? Simply add a scope holder and maybe a waste basket. Wondering how a “IV Cart” no problem...just add a glove box holder, waste basket and a sharps container bracket. By combining our wide array of cart accessories to the appropriate cart you can custom configure your own “Specialty Cart”!

Below are just a few specialty cart examples.

Waterloo value carts are designed with budget and size in mind. If you need a compact mobile storage solution that keeps an eye on your pocketbook then our Value cart is for you!

Standard Features include:

• Centralized key lock.
• Ball bearing glide drawers.
• Removable ABS plastic top.
• Includes single pull-out shelf.
• 5" Premium easy roll casters (two braking, one steering, and one full swivel).
• Stabilizer base with high impact nylon reinforced polycarbonate bumper.
• Antimicrobial properties.

---

The Waterloo All-in-One cart was originally purpose built to allow phlebotomists the opportunity to spend more time on patient floors and less time heading back to the lab for fresh supplies. This very popular cart offers a variety of storage compartments and tilt bins for all your phlebotomy supplies. But this cart is much more than for phlebotomy alone. With the built-in tilt bins, waste receptacle and removable trays this cart can be used as an IV cart, Suture cart, etc... The sky's the limit when it comes to the versatility of our All-in-One cart!
DRAWER ACCESSORIES

DIVIDERS & TRAYS
